PRE-GLOVING HAND LOTION · COSMETIC

I.C.® HAND LOTION

Scented (Blue) · Locion de Manos · Greaseless, tack free and lightly scented

PRODUCT DESCRIPTION

I.C. Hand Lotion is designed to meet the needs of any general manufacturing facility. It lacks the problematic ingredients that can interfere with processes and equipment or contaminate gloves and PPE. The greaseless blue lotion is formulated with DI water and contains no silicones, lanolins, mineral oils or glycerins. It absorbs into the skin leaving no residue, is ESD safe, and will not affect the integrity of latex or nitrile gloves. Vitamins A, D and E are added, along with blue agave, jojoba and aloe vera.

DIRECTIONS FOR USE

Use before gloving to protect hands from drying and cracking.

USES

- Pre-gloving lotion for nitrile, latex or vinyl gloves
- Moisturizes dry skin from repeated glove use and handwashing
- Improves path to ground when using wrist straps or gloves (PCB work)

APPLICATIONS

Healthcare, Office, Industrial, Education, Government, Electronics, Facility Maintenance, Nursing Homes. Formulated for the Electronic, Bioscience, Food Service and Medical industries.

QUALITY ASSURANCE

Facility standards. R&R Lotion facilities follow Current Good Manufacturing Practice (cGMP) and/or Cosmetic GMP requirements.

Material standards. Incoming raw materials must undergo quality inspection and are efficacy tested prior to being used for manufacturing.

Equipment standards. All equipment and tools utilized are cleaned and sanitized both before and after use once verified by QA using sterility testing equipment.

Formula testing. Formulas developed by R&R Lotion undergo a series of tests and approvals to verify stability, product efficacy and preservative effectiveness.

Finished product testing. Every batch produced by R&R Lotion must go through physical, chemical and microbiological testing prior to being approved for distribution. This includes in-house lab testing of appearance, color, odor, density, pH and viscosity, followed by third-party active ingredient efficacy and product sterility testing.

Product traceability. The collection and annual review of all raw materials, finished goods, process controls and formulas allows for consistent control and correction in good manufacturing and documentation procedures.
