ANTIBACTERIAL HANDWASH · OTC DRUG

I.C.® ANTIBACTERIAL HAND CLEANER

Kills germs & paraben free · Benzalkonium Chloride 0.13% · Alcohol-free, fragrance-free

PRODUCT DESCRIPTION

I.C. Antibacterial Hand Cleaner is designed for the daily and repeated handwashing of professionals in a wide collection of industries, including sterile environments, and is formulated especially for the Electronic, Cleanroom, Pharmaceutical and Food Service industries. It is formulated with mild surfactants, skin conditioners and Benzalkonium Chloride (BZK) as the antibacterial active, offering a gentler option for professionals to cleanse their skin of filth and bacteria. The advanced cleaning formula softens your skin while effectively removing soils, makeup and other contaminants.

DIRECTIONS FOR USE

Pump into DRY hands. Lather vigorously for at least 15 seconds. Rinse and dry thoroughly.

USES

- Use to remove grease, filth, oil, adhesives and more
- Use for hand washing to decrease bacteria on the skin
- Use to condition dry skin
- Use to protect skin from oil and water contaminants

APPLICATIONS

Healthcare, Office, Industrial, Education, Government, Electronics, Facility Maintenance, Nursing Homes. Formulated for the Electronic, Cleanroom, Pharmaceutical and Food Service industries.

FEATURES & BENEFITS

PURIFYING	Gently cleanses most filth and contaminants found in the workplace

QUALITY ASSURANCE

Facility standards. R&R Lotion facilities follow Current Good Manufacturing Practice (cGMP) and/or Cosmetic GMP requirements.

Material standards. Incoming raw materials must undergo quality inspection and are efficacy tested prior to being used for manufacturing.

Equipment standards. All equipment and tools utilized are cleaned and sanitized both before and after use once verified by QA using sterility testing equipment.

Formula testing. Formulas developed by R&R Lotion undergo a series of tests and approvals to verify stability, product efficacy and preservative effectiveness.

Finished product testing. Every batch produced by R&R Lotion must go through physical, chemical and microbiological testing prior to being approved for distribution. This includes in-house lab testing of appearance, color, odor, density, pH and viscosity, followed by third-party active ingredient efficacy and product sterility testing.

Product traceability. The collection and annual review of all raw materials, finished goods, process controls and formulas allows for consistent control and correction in good manufacturing and documentation procedures.
