I.C. ANTIBACTERIAL HAND CLEANER WITH PUMICE

PRODUCT DESCRIPTION

I.C. Antibacterial Hand Cleaner with Pumice is a heavy-duty hand cleaner designed to gently remove any workplace contaminant. An addition of pumice allows for the deep exfoliation of skin and the instant lathering of premium surfactants, which activates and cleanses pores beneath the surface. Skin conditioners heal past damage as Benzalkonium Chloride (BZK) sanitizes your skin and a deodorizing agent cleanses any lingering odors.

DIRECTIONS FOR USE:

Pump into dry hands. Lather vigorously for at least 15 seconds. Rinse and dry thoroughly.

USES:

- Use to remove grease, filth, oil, adhesives, and more
- Use to cleanse 99.99% of germs and bacteria from skin
- Use to exfoliate skin and strip pores of both oil and water contaminants.

APPLICATIONS:

Healthcare, Office, Industrial, Education, Government, Electronics, Facility Maintenance, Nursing Homes

QUALITY ASSURANCE

Facility Standards - R&R Lotion facilities follow Current Good Manufacturing Practice (cGMP) and/or Cosmetic GMP requirements.

Material Standards - Incoming raw materials must undergo quality inspection and are efficacy tested prior to being used for manufacturing.

Equipment Standards - All equipment and tools utilized are cleaned and sanitized both before and after use once verified by QA using sterility testing equipment.

Formula Testing - Formulas developed by R&R Lotion undergo a series of tests and approvals to verify stability, product efficacy, and preservative effectiveness.

Finished Product Testing - Every batch produced by R&R Lotion must go through physical, chemical, and microbiological testing prior to being approved for distribution. This includes in-house lab testing of appearance, color, odor, density, pH, and viscosity, followed by third-party active ingredient efficacy and product sterility testing.

Product Traceability - The collection and annual review of all raw materials, finished goods, process controls, and formulas allows for consistent control and correction in good manufacturing and documentation procedures.
