Waterless Hand Cleaner. As part of our dedication to developing innovative solutions in our FDA and EPA registered facility, we're addressing the pressing need for health and hygiene solutions tailored for outdoor workers who often lack access to water.

Our I.C. Waterless Hand Cleaner, a no-rinse formula, provides a practical and effective solution to hand hygiene in demanding outdoor environments. The product features Benzalkonium Chloride, an active ingredient known for its strong antibacterial properties. This cleaner not only helps to remove dirt and sanitize hands but also incorporates vitamins, botanicals, and succulents designed to repair and condition the skin.

Outdoor work can be messy, but with the I.C. Waterless Hand Cleaner, professionals can effectively remove, sanitize, and condition their hands without needing water. A notable feature of our formula is the gentle pumice that aids in exfoliating the skin, effectively removing lingering grime. The cleaner effortlessly towels off grease and oils, ensuring workers can maintain cleanliness and hygiene, regardless of their environment. The formula provides immediate, long-lasting protection and care, allowing workers to carry out their essential duties with confidence in their health and cleanliness.
