

POISON IVY BARRIER · OTC SKIN PROTECTANT

I.C.® IVY BLOCK

Pre-contact formula · Poison ivy, oak & sumac skin protectant with bentonite clay · NDC 59555-200

PRODUCT DESCRIPTION

I.C. Ivy Block is formulated to protect outdoor workers against poison ivy, poison oak and poison sumac rash. This heavy-duty, pre-contact protective lotion uses zinc acetate as a barrier against the urushiol oils found in poison ivy and oak, bentonite clay that helps absorb the urushiol for added protection, and a film former that seals the pores. It goes on just like sunscreen to all exposed skin and dries quickly, offering immediate protection.

DIRECTIONS FOR USE

- Shake well before use. Apply 15 minutes before exposure.
- Apply generously to dry, exposed skin. Allow to dry.
- Apply every 4 hours for continued protection or sooner if needed.
- After possible exposure with skin irritants, remove using I.C. Ivy Cleanse.
- Children under 2 years: ask a doctor.

Tip: wash off with I.C. Ivy Cleanse and cool water after possible exposure.

[CONFIRM: directions are the current label text. The old TDS read "Apply liberally to hands and gently rub together until absorbed and dry." The cool-water tip is from the product note, not the label.]

USES

- Poison ivy, oak, sumac protectant
- Apply prior to poison ivy exposure to protect skin from oils and contaminants

APPLICATIONS

Outdoor Workers, Municipalities, Utilities, Power Gen, Arborists, Telecommunications, Construction, Military.

FEATURES & BENEFITS

MULTI-STAGE PROTECTION	Contains numerous protective elements in a single formulation
BENTONITE CLAY BARRIER	Bentonite clay helps absorb urushiol oil for added protection
DURABLE PROTECTION	Stops most water and oil-based substances from clinging to skin
IMMEDIATE PROTECTION	Dries quickly, offering immediate protection
HYDRO BARRIER	Forms a hydrophobic barrier from skin contaminants
SKIN SEALANT	Film former seals the pores; protects from contamination caused by skin exposure
ALCOHOL-FREE	Contains no alcohol, which can dry and crack skin
CLEAR APPLICATION	No visibility or streaks after application
LIGHTWEIGHT	Designed to be invisible and traceless
NON-TACKY · NON-GREASY	Gel formula with no stickiness or binding; dries with no oil-tracking
GEAR-SAFE	Lacks ingredients that cause long-term damage to gear; ASTM D120, D6413 and F2621 tested

FREE OF

ALCOHOL-FREE

DYE-FREE

PARABEN-FREE

APPEARANCE

PRODUCT TYPE	Opaque gel
COLOR	Tan
ODOR	Odorless
PH	7.0–7.5
VISCOSITY	27,500–37,500 cPs, T-bar C @ 10 RPM

STORAGE TEMPERATURE & SHELF LIFE

This product has a shelf life of at least 24 months from the date of manufacture when stored unopened at room temperature. The product should not exceed 32°F – 150°F to remain stable and effective. Label: protect from excessive heat (48°C/120°F).

COMPATIBILITY TESTING

ASTM D120 – RUBBER INSULATING GLOVES

TEST SUBJECT	LEAKAGE AT 20 KV, MA	PASS/ FAIL	D-149 BREAKDOWN, KV
Initial glove	10.69	Pass	36.4 (FO)
3-day Ivy Block exposure	11.49	Pass	36.6 (FO)
16-hour distilled test	12.45	Pass	35.0 (FO)
3-day exposure + 16-hr distilled soak	15.60	Pass	28.0 (FO)

ASTM D6413 – VERTICAL FLAME

TEST	LENGTH DIRECTION	WIDTH DIRECTION
After flame time (sec)	0.5	0.3
Char length (mm)	4.0	3.0
Melting / dripping	none / none	none / none

ASTM F2621 – ARC RATING

FABRIC SYSTEM RATING	ARC RATING RESULT
Dry	(ATPV) = 9.5 cal/cm ²
Wet	(ATPV) = 4.7 cal/cm ²
Ivy Block	(ATPV) ~ 6.8 cal/cm ²

QUALITY ASSURANCE

Facility standards. R&R Lotion facilities follow Current Good Manufacturing Practice (cGMP) and/or Cosmetic GMP requirements.

Material standards. Incoming raw materials must undergo quality inspection and are efficacy tested prior to being used for manufacturing.

Equipment standards. All equipment and tools utilized are cleaned and sanitized both before and after use once verified by QA using sterility testing equipment.

Formula testing. Formulas developed by R&R Lotion undergo a series of tests and approvals to verify stability, product efficacy and preservative effectiveness.

Finished product testing. Every batch produced by R&R Lotion must go through physical, chemical and microbiological testing prior to being approved for distribution. This includes in-house lab testing of appearance, color, odor, density, pH and viscosity, followed by third-party active ingredient efficacy and product sterility testing.

Product traceability. The collection and annual review of all raw materials, finished goods, process controls and formulas allows for consistent control and correction in good manufacturing and documentation procedures.

REGULATORY

This product is an OTC drug (skin protectant), manufactured and labeled in compliance with the Federal Food, Drug, and Cosmetic Act administered by the Food and Drug Administration (FDA). R&R Lotion is an FDA and EPA registered and audited facility.
