

NO-RINSE ANTIBACTERIAL HAND CLEANER · OTC DRUG

I.C.® WATERLESS HAND CLEANER

with Micro Scrubbers · Antibacterial · Cleans · Sanitizes · Remoisturizes

PRODUCT DESCRIPTION

I.C. Antibacterial Waterless Hand Cleaner is designed to exfoliate, cleanse, sanitize, nourish and protect your hands without the use of water. Micro scrubbers and gentle emollients remove grease, dirt, grime and other contaminating materials, then simply towel off. Benzalkonium Chloride (BZK) sanitizes hands of germs and bacteria, dimethicone helps keep water-soluble contaminants off the skin, and Sunflower & Shea Butter with succulents, botanicals and vitamins A, D and E re-moisturize dry and cracked hands.

DIRECTIONS FOR USE

Apply liberally to hands. Rub onto hands and lather vigorously. Dry off hands with towel.

USES

- Use to remove grease, filth, oil, adhesives and more
- Use for hand washing to decrease bacteria on the skin
- Use to condition dry skin
- Use to cleanse skin of oil and water contaminants

APPLICATIONS

Healthcare, Office, Industrial, Education, Government, Electronics, Facility Maintenance, Nursing Homes. For jobsites that lack access to water.

FEATURES & BENEFITS

NO RINSE	Use for jobsites that lack access to water. Simply apply, scrub and towel off
HEAVY DUTY	Removes contaminants like tar, oil, grease, carbon, sap, ink, adhesives and more
CLEANSING SCRUB	Micro scrubbers exfoliate and strip trapped oils and filth
FAST ACTING	Kills germs in as little as 15 seconds
ALCOHOL-FREE	Helps prevent the drying, cracking and skin irritation caused by alcohol
SOLVENT-FREE	Lacks harsh chemical solvents that can cause long-term damage to your skin
DURABLE PROTECTION	Stops most water and oil-based substances from clinging to skin
SKIN SOFTENING	Immediately softens hands and helps prevent drying
BUTTERS & BOTANICALS	Sunflower and shea butters, succulents (jojoba, blue agave, aloe vera), 13+ oils and botanicals and vitamins A, D and E help maintain the skin's hydration
SOAP-FREE	Does not contain the alkali additives typically found in hand soaps
NON-CONTAMINATING	Lacks compromising ingredients that contaminate work equipment or surfaces
DERMATOLOGIST TESTED	Dermatologist tested: 50-person HRIPT (ALS/BioScreen), no indication of irritation or sensitization.

| QUALITY ASSURANCE

Facility standards. R&R Lotion facilities follow Current Good Manufacturing Practice (cGMP) and/or Cosmetic GMP requirements.

Material standards. Incoming raw materials must undergo quality inspection and are efficacy tested prior to being used for manufacturing.

Equipment standards. All equipment and tools utilized are cleaned and sanitized both before and after use once verified by QA using sterility testing equipment.

Formula testing. Formulas developed by R&R Lotion undergo a series of tests and approvals to verify stability, product efficacy and preservative effectiveness.

Finished product testing. Every batch produced by R&R Lotion must go through physical, chemical and microbiological testing prior to being approved for distribution. This includes in-house lab testing of appearance, color, odor, density, pH and viscosity, followed by third-party active ingredient efficacy and product sterility testing.

Product traceability. The collection and annual review of all raw materials, finished goods, process controls and formulas allows for consistent control and correction in good manufacturing and documentation procedures.
