

TOPICAL ANALGESIC & SKIN PROTECTANT · OTC DRUG

I.C.® ITCH & PAIN RELIEF

Industrial roll-on stick · Diphenhydramine HCl 2% + Zinc Acetate 0.1% · Single-handed application

PRODUCT DESCRIPTION

I.C. Itch & Pain Relief is a roll-on stick whose single-handed design delivers gentle, easy application. Diphenhydramine HCl, a topical analgesic and antihistamine, temporarily relieves pain and itching from insect bites, minor cuts, scrapes, burns, sunburn and minor skin irritations, while zinc acetate, a skin protectant, dries the oozing and weeping of poison ivy, oak and sumac. Alcohol-free, steroid-free and odorless.

DIRECTIONS FOR USE

Do not use more than directed. Hold stick straight down over affected area; press tip of stick repeatedly on affected skin area until liquid flows, then dab sparingly. Adults and children 2 years of age and older: apply to affected area not more than 3 to 4 times daily. Children under 2 years of age: ask a doctor.

USES

Temporarily relieves pain and itching associated with:

- Insect bites
- Minor burns, minor cuts, scrapes
- Sunburn · minor skin irritations
- Rashes due to poison ivy, oak and sumac
- Dries the oozing and weeping of poison ivy, oak and sumac

APPLICATIONS

Outdoor Workers, Municipalities, Utilities, Power Gen, Telecommunications, Arborists, Construction, Military.

(Foil box of 50 retired 2026-10-12.)]

SAFETY DATA SHEETS

For safety, environmental, handling, first aid and disposal information, refer to the Safety Data Sheet in the SDS library at rrlotion.com/msds/

QUALITY ASSURANCE

Facility standards. R&R Lotion facilities follow Current Good Manufacturing Practice (cGMP) and/or Cosmetic GMP requirements.

Material standards. Incoming raw materials must undergo quality inspection and are efficacy tested prior to being used for manufacturing.

Equipment standards. All equipment and tools utilized are cleaned and sanitized both before and after use once verified by QA using sterility testing equipment.

Formula testing. Formulas developed by R&R Lotion undergo a series of tests and approvals to verify stability, product efficacy and preservative effectiveness.

Finished product testing. Every batch produced by R&R Lotion must go through physical, chemical and microbiological testing prior to being approved for distribution. This includes in-house lab testing of appearance, color, odor, density, pH and viscosity, followed by third-party active ingredient efficacy and product sterility testing.

Product traceability. The collection and annual review of all raw materials, finished goods, process controls and formulas allows for consistent control and correction in good manufacturing and documentation procedures.
